

Shrimp Sanctuary Reset Basket Assembly Instructions

Step 1: Attach Triangle Brackets

Attach the four triangle brackets to the corners of the **Base Plate** using **Short Screws**.

Step 2: Secure Back Plate

Position the **Back Plate** onto the base, aligning it with the triangle brackets. Secure it using **Short Screws**

Step 3: Install Side Plates

Attach the **Left Side Plate** (labeled 'L') and **Right Side Plate** (labeled 'R') to the base and triangle brackets using **Short Screws**

Step 4: Fasten L-Brackets

Fasten the four **L-Brackets** to the top corners of the box, connecting the back and side plates, using **Short Screws** for added support and stability.

Step 5: Add Front Piece

Attach the **Front Piece** to the front edges of the side plates, using **Short Screws**

If the tank glass is thinner, use two **Long Screws** for extra support at the front
